Compleat[®] paediatric

The first and only tube feed in the UK
to contain food derived ingredients*

***13.8% of Compleat[®] paediatric is from rehydrated chicken meat and rehydrated vegetables (peas and green beans), peach puree and orange juice from concentrate.**

Compleat[®] paediatric is the new name for this tube feed formerly known as Isosource[®] Junior Mix. You may notice the name change on your prescribing system as early as 25th October 2021 and patients will see the new label on their bottles from December 2021**. The formula, nutritional profile and price are all remaining the same.

Compleat[®] paediatric is an enteral tube feed for the dietary management of patients with or at risk of malnutrition, and is suitable as a sole source of nutrition.

Visit www.nestlehealthscience.co.uk/brands/compleat for more information or call our careline number on: 00800 6887 4846
