

Information for healthcare professionals to give to parents/carers.

Compleat[®] paediatric

is the new name for
Isosource[®] Junior Mix

New name, same great formula

Nothing else has changed about the tube feed you're using; the recipe, ingredients and nutritional profile are exactly the same. Only the name has changed from Isosource[®] Junior Mix to Compleat[®] paediatric.

Why has the name changed?

Compleat® is an existing brand name used around the world for Nestlé Health Science feeds with food-derived ingredients.

Adopting the name Compleat® paediatric will help us pave the way to developing more great feeds, while helping to make it easier for families and healthcare professionals to remember just one name.

Do I need to change my prescription?

There's nothing you need to do. The prescribing healthcare professional will change the name of the product on your prescription to Compleat® paediatric.

Any further questions?

Please contact your healthcare professional if you would like any further information about Compleat® paediatric.
